# RD-4300E

## High Speed Print

The print speed of RD-4300 digital duplicator have 5 levels from 45ppm to 130 ppm. It only takes 8 minutes to print 1000 copiers at top speed, which greatly promotes office work.

## Simple Operation:

The angle of control panel, key layout, levers and doors on the duplicators are all designed based on thorough ergonomic studies so everybody in the organization can use them easily. No special training is required.

## Intelligent Flat Bed Scanner

Flat bed scanner gives fast, convenient scanning of bound originals up to A3 size without breaking them apart. There's even a function to intelligently remove the gray background color frequently found when scanning newspapers and the like

## Colorful Chromatically Printing

With a simple drum change, multiple colour printing is available.

## PC Connection

Equip standard USB interface, is a perfect printer. High-speed computer connect function save your time and improve the working efficiency.

● Traditional way: It takes 4 hours and need participation of the operator

● It takes two procedures, and the operator only needs to practice distant controls on the panel.
